

## Mount St Thomas Public School Behaviour Support and Management Plan

### Overview

Mount St Thomas Public School is a vibrant school community where every student is celebrated for their unique strengths, perspectives, and experiences. We are committed to fostering an inclusive culture and a safe and welcoming space where students, educators, and families from all backgrounds feel valued, respected, and empowered to thrive.

Central to our vision is the promotion of holistic wellbeing for all members of our community. We believe that true learning cannot happen without prioritising the physical, emotional, and mental health of each individual. Our school provides support systems that prioritise self-care and emotional resilience. Through a blend of academic rigor and compassionate care, we empower our students to become confident, compassionate leaders who are equipped to navigate life's challenges with grace and resilience.

To achieve our mission, key programs prioritised and valued by the school community are:

- Positive Behaviour for Learning (PBL)
- Second Step - Social-Emotional Learning programs K-6
- Berry Street Education Model (BSEM)
- The Anxiety Project (TAP)

These programs prioritise social and emotional learning which supports good mental health, positive relationships and supports prevention of bullying.

Mount St Thomas Public School rejects all forms of bullying behaviours, including online (or cyber) bullying by maintaining a commitment to providing a safe, inclusive, and respectful learning community that promotes student wellbeing. Staff are committed to establishing evidence-based approaches and strategies that promote a positive climate where bullying is less likely to occur.

All members of the school community are active participants in building a welcoming school culture that values diversity and fosters positive relationships. A key component of a supportive school culture is building respectful relationships and an ethos that bullying is not accepted, in both online and offline environments. School staff actively respond to student bullying behaviour. Partnerships with parents and the wider community are central to the success of addressing bullying when it occurs in our community. Our school encourages effective communication strategies whilst working together as a school community to change bullying behaviours. We will do this by educating targets, bystanders, Upstanders and those who are bullying in a range of strategies and interventions to prevent, intervene and respond to bullying behaviours.

## Partnership with parents and carers

Mount St Thomas Public School will partner with parents/carers in establishing expectations for engagement in developing and implementing student behaviour management and antibullying strategies, by:

- inviting parent/carer and student feedback through formal and informal means, such as Tell Them from Me surveys, school surveys, parent workshops, focus student groups, consulting with the P & C and consulting with the local AECG
- using concerns raised through complaints procedures to review school systems, data and practices

Mount St Thomas Public School will communicate these expectations to parents/carers through the school newsletter and school website. Our school proactively builds collaborative relationships with families and communities to create a shared understanding of how to support student learning, safety and wellbeing.

## School-wide expectations and rules

The following values from these integrated guidelines reflect the needs of our school and the fundamental ideals that underpin student wellbeing in our school.

The values at Mount St Thomas School are:

<b>RESPECT</b>	<b>RESPONSIBILITY</b>	<b>SAFETY</b>
Respect for yourself	Responsibility for yourself	Be safe
Respect for your teacher/s	Responsibility for your things	Play safe
Respect for each other	Responsibility for your school	Act safe

## Behaviour Code for Students

NSW public schools are committed to providing safe, supportive and responsive learning environments for everyone. We teach and model the behaviours we value in our students.

The Behaviour Code for Students can be found at <https://education.nsw.gov.au/policy-library/policyprocedures/pd-2006-0316/pd-2006-0316-01>. This document translated into multiple languages is available here: [Behaviour code for students](#).

## Whole school approach across the care continuum

We aim to be a place where all are free to learn, play and express themselves without fear of ridicule, intimidation or violence. At Mount St Thomas Public School quality education is provided for students to meet their learning needs in a secure, ordered and supportive school environment where students learn and grow with confidence. Students develop best in schools where teaching and learning occur in a context of positive student welfare. At our school, the wellbeing, safety and health of students is a cornerstone of all school policies, programs and practices.

Our school embeds student wellbeing and positive behaviour approaches and strategies in practices across the care continuum to promote positive behaviour and respond to behaviours of concern, including bullying and cyber-bullying behaviour.

These approaches and strategies are built on a foundation of evidence-based effective classroom practices that set the tone for engagement with learning and respectful relationships. These practices include:

- stating and explicitly teaching classroom expectations
- establishing predictable routines and procedures that are communicated clearly to students
- encouraging expected behaviour with positive feedback and reinforcement
- discouraging inappropriate behaviour
- providing active supervision of students
- maximising opportunities for active engagement with learning
- providing carefully sequenced engaging lessons that provide options for student choice
- differentiating learning content and tasks to meet the needs of all learners.

## Planned responses to positive appropriate behaviour, inappropriate behaviour and behaviours of concern, including bullying and cyber-bullying

Planned responses to behaviour that does not meet school expectations are either teacher or executive managed. Staff use their professional judgement in deciding whether a behaviour is teacher managed or executive managed. They should consider whether the behaviour poses a risk to the safety or wellbeing of the student or others.

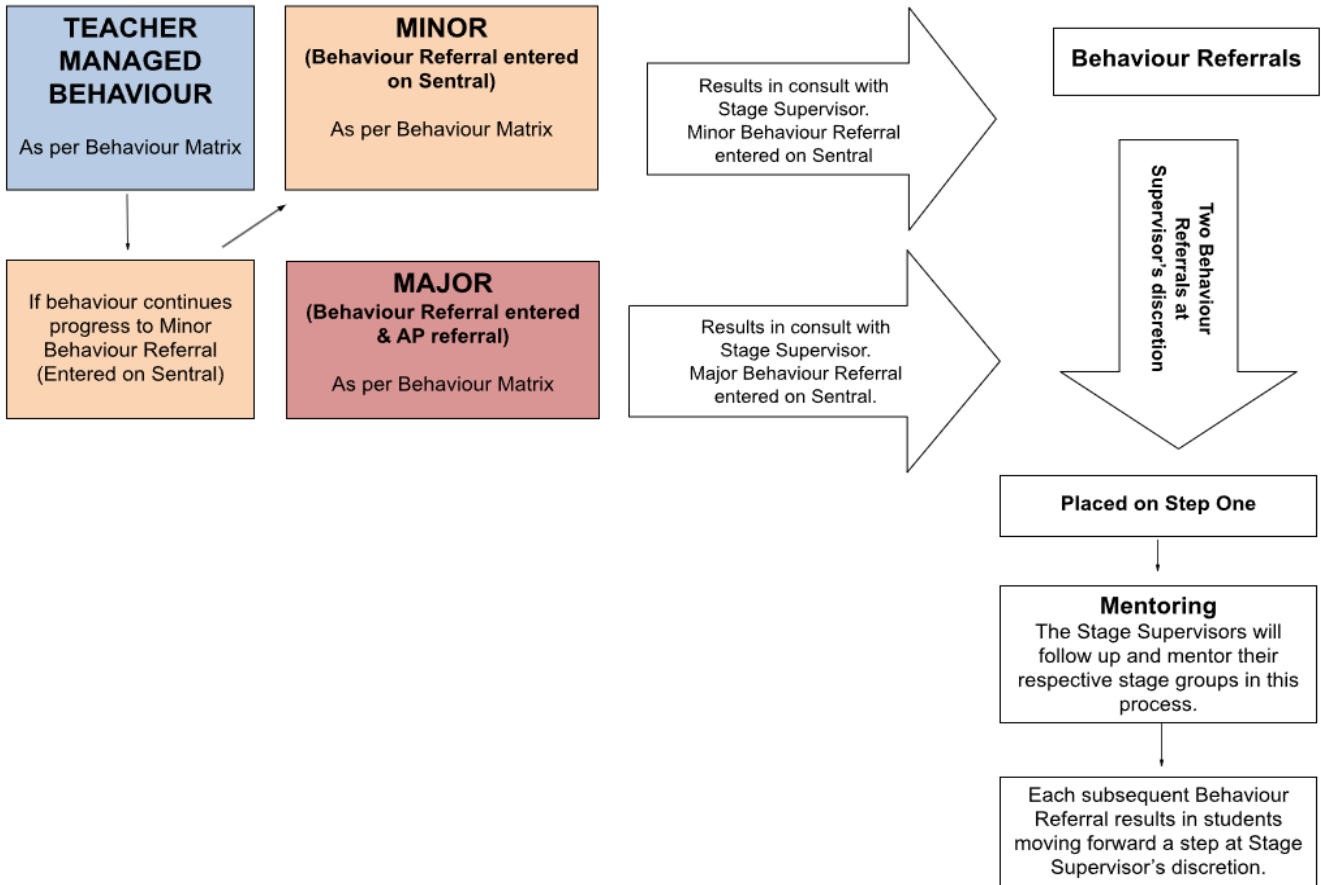

A behaviour of concern is challenging, complex or unsafe behaviour that requires more persistent and intensive interventions. A behaviour of concern does not include low-level inappropriate or developmentally appropriate behaviour.

**Teacher managed** – low level inappropriate behaviour is managed by teachers in the classroom and the playground.

**Executive managed (Behaviour referrals)**– behaviour of concern is managed by school executive.

These behaviours align with our school behaviour matrix:
